

HAIDER ISSA

Senior Full-Stack & Backend Engineer | Information Systems Engineer

Tartus, Syria | +963 993 604 232 | haider.ali.issa@gmail.com | linkedin.com/in/haider-issa-b9476411a

PROFESSIONAL SUMMARY

Results-driven Information Systems & Software Engineer with over 8 years of hands-on experience designing, developing, and deploying scalable web applications, cloud solutions, and workflow automations. Proven track record of engineering 30+ end-to-end software projects spanning ERP/POS financial systems, automated site-generation engines, and AI-powered tools. Specialized in backend architecture with Laravel, PHP, MySQL, and PostgreSQL, alongside modern frontend development using React, Inertia.js, and Tailwind CSS. Recognized for strong technical expertise in ZATCA e-invoicing compliance, web application hardening, performance optimization, and AI/RAG integration using n8n and LLMs.

TECHNICAL SKILLS

- **Backend Development:** PHP, Laravel, Pure PHP, CRUDBooster, Node.js, RESTful APIs Architecture, Microservices, Multi-tenancy Architecture.
- **Frontend Development:** JavaScript (ES6+), React.js, Inertia.js, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery.
- **Databases & Optimization:** MySQL, PostgreSQL, Schema Design, Indexing, Query Optimization, Migrations & Seeders.
- **Web Security & Hardening:** Content Security Policy (CSP), Honeypot Protection, Rate Limiting, Input Sanitization, HTTPS Redirects, OWASP Mitigation.
- **Performance & Speed:** Server-Side Caching, Query Profiling, Asset Bundling (Vite), WebP Image Processing, Lazy Loading.
- **AI & Automation Workflows:** n8n Workflows, OpenAI APIs, Retrieval-Augmented Generation (RAG), Vector DBs (pgvector), Webhooks, GitHub Copilot, Claude AI.
- **Software Engineering Principles:** SDLC, System Analysis & Architecture, Database Administration, QA Testing, Adaptability to learn new tech stacks rapidly.

WORK EXPERIENCE

Senior Web & Systems Engineer | Voila Digital Company *2018 – Present (8+ Years)*

- **End-to-End Delivery:** Led full Software Development Life Cycle (SDLC) for 30+ internal and client software projects, handling system analysis, schema design, core development, testing, and deployment.
- **Backend Engineering:** Architected and optimized secure, scalable backend applications using Laravel, PHP, and MySQL/PostgreSQL, implementing robust RESTful APIs and multi-tenant structures.
- **Security & Performance:** Implemented strict web security policies (CSP headers, honeypots, rate limiting, data sanitization) and applied aggressive performance optimization techniques to drastically improve page speed.
- **Workflow Automation:** Engineered automated workflow pipelines using n8n for automated lead generation from LinkedIn, custom CRM integrations, and data processing.
- **Company Infrastructure:** Designed and maintained Voila Digital's official portal (voila.digital) with integrated marketing tools and lead capture mechanisms.

KEY PROJECTS SHOWCASE

CloudSellPOS – Cloud Accounting & POS System (*cloudsellpos.com*)

- **Core Architecture:** Architected a comprehensive cloud-based ERP & POS platform adhering strictly to international accounting standards.

- **ZATCA Compliance:** Successfully engineered and integrated digital signing, XAdES verification, XML UBL 2.1 compliance for Phase 2 e-invoicing integration with the Saudi Tax, Zakat and Customs Authority (ZATCA).
- **Financial AI Assistant:** Developed CloudSell Copilot, an embedded AI-powered financial assistant delivering instant financial analytics and automated business insights.

MagicBoo – Automated Site Generation Platform

- **Template Engine:** Engineered a dynamic web platform enabling instant multi-sector site generation based on pre-configured modular templates and automated backend setups.

Enterprise AI & RAG Workflows (n8n Integration)

- **AI Automation:** Built n8n automated pipelines for retrieving high-intent leads from social platforms, storing embeddings in pgvector, and deploying contextual RAG documentation chatbots.

EDUCATION

Bachelor's Degree in Information Systems & Software Engineering

Faculty of Information Technology Engineering, Damascus University *Graduated: 2014*

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Time Management & Strict Deadline Adherence, Analytical Problem Solving, Agile Teamwork & Collaboration, Continuous Self-Learning.
- **Languages:** Arabic (Native), English (Good / Professional Working Proficiency).
